

EDUCATION

COLLEGE EDUCATION - Sri Eshwar College of engineering 7.5(IIIrd - sem)	B.E CSE	2024-2028
SCHOOLING - Ambal Matriculation Higher Secondary School 81.6%	HSC	2023-2024
SCHOOLING - Ambal Matriculation Higher Secondary School 83.2%	SSLC	2021-2022

INTERNSHIP EXPERIENCES

Open Source Contributor – GirlScript Summer of Code (GSSoC)	2026
Contributing to open-source projects through GSSoC 2026 by resolving GitHub issues, developing new features, and submitting pull requests using Git, GitHub, and collaborative development workflows.	
Better Tomorrow	2025
Developed a full-stack E-commerce web application using React.js, Node.js, Express.js, and MongoDB, implementing CRUD APIs, user authentication with JWT, cart functionality, and product listing features.	

PROJECTS

Course Finder (Ongoing)	Github	2026
Tech Stack : MongoDB, Express.js, React Native, Node.js, JavaScript		
Architected and deployed a full-stack course discovery platform enabling users to explore, track, and manage learning progress with personalized recommendations, course completion tracking, and push notifications with deep linking. Built scalable RESTful APIs using Node.js and Express.js integrated with MongoDB, and optimized React Native front-end performance for a seamless cross-platform user experience.		
FocusTube – YouTube Productivity Extension	Github	2026
Tech Stack: React, TypeScript, Plasmio, Chrome Extension API, IndexedDB, Tailwind CSS		
Designed and deployed a cross-browser productivity extension that enhances focus by analyzing and filtering YouTube content based on user-defined learning preferences. Built dynamic feed processing, Shorts blocking, educational content prioritization, channel management, and persistent local storage features, resulting in a personalized and distraction-free video consumption experience while maintaining seamless integration with YouTube's interface.		
Smart Research Assistant	Github	2026
Tech Stack: FastAPI, React.js, SQLite, ChromaDB, Ollama, Qwen2.5, BGE Embeddings, OpenAlex API		
Designed and deployed a multi-agent AI research platform that automates paper discovery, summarization, comparison, document-grounded chat, and research report generation. Implemented a RAG pipeline using ChromaDB, BGE embeddings, and cosine similarity search with Ollama-hosted Qwen2.5 models, enabling accurate semantic retrieval and reducing hallucinations. Built PDF/DOCX export, persistent chat history, task tracking, and intelligent caching mechanisms to optimize research workflows and system performance.		

ACHIEVEMENTS

2nd Runner - CodeLee Programming Competition (Leetcode)	April 2025
2nd Runner - Freshathon (Web-design Competition)	December 2025

CODING PROFILES

Leetcode- Max Rating:1767 Global Rank: 106,530 Problems Solved : 301 Profile Link: Haripriyan
SkillRack- Bronze Medals : 315 Global Rank: 17,961 Problems Solved : 1124 Profile Link: Haripriyan
Codechef- Bronze Badge Problems Solved : 60 Rating: 906 Profile Link: Haripriyan

CERTIFICATIONS

Design Thinking (Elite Silver)	NPTEL	2026
Python Programming Masterclass	Udemy	2025
Mastering Data Structures & Algorithms using C and C++	Udemy	2025
Complete Guide to C programming Foundations	LinkedIn Learning	2025
C & C++ Training Completion	IIT Bombay	2024

TECHNICAL SKILLS

Languages	C C++ Javascript Python
Technologies/Frameworks	NodeJS Express ReactJS React Native OpenCV Cloud Computing FireBase
Database	SQL Mongodb PostgresSQL
Tools	Git GitHub Postman Docker Vercel AWS Render Colab
Core Concepts	Data Structures & Algorithms OOP DBMS Computer Networks Operating Systems
